FLEXIBLE ORGANIZATION

MOD YOUR GARAGE.

Sheds and garages were never meant to be works of art, they are busy spaces that need to always adapt. Bringing new items in, figuring out where old ones go. We know the struggle.

When the bikes move in and the skis move out, when the power tools take the place of gardening gear. When it's suddenly winter and your stuff needs to change.

That's why we've created a storage and organization system designed for the realities of life.

Built for you today, tomorrow, always.

Maximize your storage space by running a versatile combination of **MOD™ Tracks** and **MOD™ Clips** across the width of the wall.

As seasons change, quickly move the toboggan out of way to make room for the fishing poles. Display it proudly or pack it in, it's completely up to you!

MOD YOUR HOME.

With a modular system, there are endless possibilities to transform and optimize your space.

It's no longer about "set and forget it", it's about "**set and MOD-ify it**".

Find the perfect place for that certain thing.

Chaos be gone - Hello order!

Whether its detergent in the laundry room, or jumbo jars of pickles in the pantry - don't be shy to stock up - the **MOD™** Wire Shelf can hold up to 50lbs so you don't have to hold back.

The **MOD™** Utility Shelf is a multi-purpose ledge - but don't let its size fool you. It's easy to clean and great for keeping all your cleaning essentials at hand.

Create a multi-functional space for the more active places in your home. Using **MOD™** in the laundry room and mud room lets you keep control of your clutter as you pop a load of laundry in before zipping out the door to take the kids to baseball practice. A place for everything - accessible and adaptable. **MOD™** holds essentials neatly and looks great while doing it.
