

Product Name:
MOTOMASTER™ WHEEL BEARING AND CHASSIS LUBRICANT GREASE
Description:

MotoMaster Wheel Bearing and Chassis Lubricant Grease is a premium quality, multi-purpose lithium complex grease formulated with extreme pressure, anti-wear, anti-corrosion and oxidation inhibitors. It is water resistant. Superior wheel bearing and chassis performance and meets the NLGI Service Classification category GC-LB required to meet automotive and light duty truck wheel bearing and chassis lubrication. Provides protection to lubricate a wide variety of severe duty automotive, trucking, industrial, mining and construction equipment. Use as directed in your service manual and user's guide.

Applications:

MotoMaster Wheel Bearing and Chassis Lubricant Grease is a premium quality, multi-purpose lithium complex grease. Ideal for brake and wheel bearing jobs—use to lubricate automotive wheel bearings, chassis, ball joints and steering linkage. Water and heat resistant, this product may also be used as a general purpose grease on utility trailers and in certain farm and industrial applications. Superior protection to lubricate a wide variety of severe duty automotive, trucking, industrial, mining and construction equipment.

Typical Properties:

Material Code	665682436
NLGI Consistency Number	2
Thickener	Lithium Complex
Texture	Smooth, Adhesive
Color, Observed	Red
Worked 60 Penetration, ASTM D217	265-295
Dropping Point, ASTM D2265, °F (°C)	500 (260)
Rust Prevention, ASTM D1743, rating	Pass
Four-Ball EP Weld Point, ASTM D2596, kgf	315
NLGI Classification	GC-LB
Approximate Temperature Range, °F (°C)	-10 to 325 (-23 to 163)
