

## BUG WASH

### SECTION 1. IDENTIFICATION

|   |  |
|---|--|
| <b>Product Identifier</b>               | BUG WASH   |
| <b>Other Means of Identification</b>    | 35-714REF, 35-414QS, 35-414RXH52, 35-713REF  |
| <b>Other Identification</b>             | Summer Windshield Wash   |
| <b>Recommended Use</b>                  | Please refer to Product label.   |
| <b>Restrictions on Use</b>              | None known.  |
| <b>Manufacturer/Supplier Identifier</b> | Recochem Inc., 850 Montee de Liesse, Montreal, QC, H4T 1P4, Compliance and Regulatory Department, 905-878-5544, <a href="http://www.recochem.com">www.recochem.com</a> |
| <b>Emergency Phone No.</b>              | CANUTEC, 613-996-6666, 24 Hours  |
| <b>SDS No.</b>                          | 1830   |

### SECTION 2. HAZARD IDENTIFICATION

#### Classification

Flammable liquid - Category 4; Eye irritation - Category 2B; Reproductive toxicity - Category 1A; Reproductive toxicity - Effects on or via lactation; Specific target organ toxicity (single exposure) - Category 3; Specific target organ toxicity (repeated exposure) - Category 1

#### Label Elements

Signal Word:  
Danger

Hazard Statement(s):

|      |   |
|------|---|
| H227 | Combustible liquid.   |
| H320 | Causes eye irritation.  |
| H335 | May cause respiratory irritation.                               |
| H360 | May damage fertility or the unborn child.                       |
| H362 | May cause harm to breast-fed children.                          |
| H372 | Causes damage to organs through prolonged or repeated exposure. |

Precautionary Statement(s):

Prevention:

|      |  |
|------|--|
| P201 | Obtain special instructions before use.  |
| P202 | Do not handle until all safety precautions have been read and understood.                      |
| P210 | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |

Product Identifier: BUG WASH - Ver. 1  
Date of Preparation: May 11, 2017  
Date of Last Revision: March 05, 2021

SDS No.: 1830

Page 01 of 09

P210 Keep away from flames and hot surfaces. – No smoking.  
P260 Do not breathe fume, mist, vapours, spray.  
P263 Avoid contact during pregnancy and while nursing.  
P264 Wash hands and skin thoroughly after handling.  
P270 Do not eat, drink or smoke when using this product.  
P271 Use only outdoors or in a well-ventilated area.  
P280 Wear protective gloves, eye protection.

**Response:**

P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.  
P312 Call a POISON CENTRE or doctor if you feel unwell.  
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P312 Call a POISON CENTRE or doctor if you feel unwell.  
P337 + P313 If eye irritation persists: Get medical advice/attention.  
P308 + P313 IF exposed or concerned: Get medical advice or attention.  
P370 + P378 In case of fire: Use appropriate foam, dry chemical powder, water spray or fog to extinguish.

**Storage:**

Store in a well ventilated place. Keep cool. Keep container tightly closed. Store locked up.

**Disposal:**

Dispose of contents/container in accordance with applicable regional, national and local laws and regulations.

**Other Hazards**

None known.

## SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Mixture:

| Chemical Name | CAS No. | %   | Other Identifiers | Other Names |
|---------------|---------|-----|-------------------|-------------|
| Methanol      | 67-56-1 | 1-5 |                   |             |

**Notes**

Use of Generic SDS:

If the concentration or actual concentration range of an ingredient of a particular hazardous product in the series is different from the concentration or actual concentration range disclosed for the rest of the series, either the concentration or the actual concentration range must be indicated beside that ingredient under item 3 (Composition/Information on ingredients) of the SDS. Furthermore, if any other specific information element(s) (such as flash point, numerical measure of toxicity, etc.) for a particular hazardous product in the series differs from that of the other products in the series (without affecting the classification), the information element relevant to that hazardous product must be disclosed on the SDS with an indication to which hazardous product each relates.

Source: Health Canada - Technical Guidance on the Requirements of the Hazardous Products Act and the Hazardous Products Regulations WHMIS 2015 Supplier Requirements - pg 117

## SECTION 4. FIRST-AID MEASURES

### First-aid Measures

#### Inhalation

Take precautions to ensure your own safety before attempting rescue (e.g. wear appropriate protective equipment). Remove source of exposure or move to fresh air. Keep at rest in a position comfortable for breathing. If breathing has stopped, trained personnel should begin rescue breathing. If the heart has stopped, trained personnel should start cardiopulmonary resuscitation (CPR) or automated external defibrillation (AED). Avoid mouth-to-mouth contact

Product Identifier: BUG WASH - Ver. 1  
Date of Preparation: May 11, 2017  
Date of Last Revision: March 05, 2021

SDS No.: 1830

Page 02 of 09

by using a barrier device. Get medical advice or attention if you feel unwell or are concerned.

#### **Skin Contact**

Avoid direct contact. Wear chemical protective clothing if necessary. Take off immediately contaminated clothing, shoes and leather goods (e.g. watchbands, belts). Wash gently and thoroughly with lukewarm, gently flowing water and mild soap for 5 minutes. Get medical advice or attention if you feel unwell or are concerned. Thoroughly clean clothing, shoes and leather goods before reuse or dispose of safely.

#### **Eye Contact**

Avoid direct contact. Wear chemical protective gloves if necessary. Immediately rinse the contaminated eye(s) with lukewarm, gently flowing water for at least 30 minutes, while holding the eyelid(s) open. If eye irritation persists, get medical advice or attention.

#### **Ingestion**

Rinse mouth with water. Never give anything by mouth if person is rapidly losing consciousness, or is unconscious or convulsing. Do not induce vomiting. If vomiting occurs naturally, lie on your side in the recovery position. Rinse mouth with water again. If breathing has stopped, trained personnel should immediately begin rescue breathing. If the heart has stopped, trained personnel should start cardiopulmonary resuscitation (CPR) or automated external defibrillation (AED). Avoid mouth-to-mouth contact by using a barrier device. Immediately call a Poison Centre or doctor. Specific treatment is required.

#### **Most Important Symptoms and Effects, Acute and Delayed**

No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. Can cause headache, nausea, vomiting, dizziness, drowsiness and confusion. A severe exposure can cause stomach pain, muscle pain, difficult breathing and coma. Vision can be impaired and permanent blindness can result. There may be other permanent effects on the nervous system e.g. tremor, seizures.

#### **Immediate Medical Attention and Special Treatment**

##### **Target Organs**

Eyes, liver, nervous system.

##### **Special Instructions**

Acute exposure to methanol, either through ingestion or breathing high airborne concentrations can result in symptoms appearing between 40 minutes and 72 hours after exposure. Symptoms and signs are usually limited to CNS, eyes and gastrointestinal tract. Because of the initial CNS's effects of headache, vertigo, lethargy and confusion, there may be an impression of ethanol intoxication. Blurred vision, decreased acuity and photophobia are common complaints. Treatment with ipecac or lavage is indicated in any patient presenting within two hours of ingestion. A profound metabolic acidosis occurs in severe poisoning and serum bicarbonate levels are a more accurate measure of severity than serum methanol levels. Treatment protocols are available from most major hospitals and early collaboration with appropriate hospitals is recommended.

##### **Medical Conditions Aggravated by Exposure**

Respiratory conditions.

## **SECTION 5. FIRE-FIGHTING MEASURES**

### **Extinguishing Media**

#### **Suitable Extinguishing Media**

Carbon dioxide, dry chemical powder, appropriate foam, water spray or fog.

#### **Unsuitable Extinguishing Media**

None known.

### **Specific Hazards Arising from the Product**

Combustible liquid. Can ignite if heated. Releases vapour that can form explosive mixture with air at or above the flash point.

In a fire, the following hazardous materials may be generated: toxic chemicals; very toxic carbon monoxide, carbon dioxide; very toxic, flammable formaldehyde.

### **Special Protective Equipment and Precautions for Fire-fighters**

Review Section 6 (Accidental Release Measures) for important information on responding to leaks/spills.

See Skin Protection in Section 8 (Exposure Controls/Personal Protection) for advice on suitable chemical protective

Product Identifier: BUG WASH - Ver. 1

SDS No.: 1830

Date of Preparation: May 11, 2017

Date of Last Revision: March 05, 2021

Page 03 of 09

materials.

## SECTION 6. ACCIDENTAL RELEASE MEASURES

### Personal Precautions, Protective Equipment, and Emergency Procedures

Evacuate the area immediately. Isolate the hazard area. Keep out unnecessary and unprotected personnel. Evacuate downwind locations. Use the personal protective equipment recommended in Section 8 of this safety data sheet. Increase ventilation to area or move leaking container to a well-ventilated and secure area. Eliminate all ignition sources. Use grounded, explosion-proof equipment. May accumulate in hazardous amounts in low-lying areas especially inside confined spaces, if ventilation is not sufficient. Distant ignition and flashback are possible.

### Environmental Precautions

Do not allow into any sewer, on the ground or into any waterway.

### Methods and Materials for Containment and Cleaning Up

Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Use spark-proof tools and explosion-proof equipment. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see section 1 for emergency contact information and section 13 for waste disposal.

## SECTION 7. HANDLING AND STORAGE

### Precautions for Safe Handling

Put on appropriate personal protective equipment (see section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use non-sparking tools. Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. Empty containers retain product residue and can be hazardous. Do not reuse container.

### Conditions for Safe Storage

Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Control Parameters

| Chemical Name | ACGIH TLV® |         | OSHA PEL |         | AIHA WEEL |     |
|---------------|------------|---------|----------|---------|-----------|-----|
|               | TWA        | STEL    | TWA      | Ceiling | 8-hr TWA  | TWA |
| Methanol      | 200 ppm    | 250 ppm | 200 ppm  | 250 ppm |           |     |

### Appropriate Engineering Controls

General ventilation is usually adequate. For large scale use of this product: do not allow product to accumulate in the air in work or storage areas, or in confined spaces. Use local exhaust ventilation, if general ventilation is not adequate to control amount in the air. Use non-sparking ventilation systems, approved explosion-proof equipment and intrinsically safe electrical systems in areas where this product is used and stored. Control static electricity discharges which includes bonding of equipment to ground. Use only non-combustible, compatible materials for walls, floors, ventilation system, air cleaning devices, pallets, shelving. Provide safety shower in work area, if contact or splash hazard exists.

Product Identifier: BUG WASH - Ver. 1  
Date of Preparation: May 11, 2017  
Date of Last Revision: March 05, 2021

SDS No.: 1830

Page 04 of 09

## Individual Protection Measures

### Eye/Face Protection

Wear chemical safety goggles.

### Skin Protection

Wear chemical protective clothing e.g. gloves, aprons, boots.  
Nitrile rubber.

### Respiratory Protection

Not normally required if product is used as directed. For non-routine or emergency situations: wear a NIOSH approved air-purifying respirator with an organic vapour cartridge.

## SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

### Basic Physical and Chemical Properties

|   |   |
|---|---|
| <b>Appearance</b>                                       | Available in these colours: Clear, Yellow, Gold, Red, Blue, Green, Amber, Pink, Orange, Purple, White, Brown, Grey, Teal. |
| <b>Odour</b>  | Pungent   |
| <b>Odour Threshold</b>                                  | Not available   |
| <b>pH</b>   | 5 - 6   |
| <b>Melting Point/Freezing Point</b>                     | Not available (melting); Not available (freezing)   |
| <b>Initial Boiling Point/Range</b>                      | Not available   |
| <b>Flash Point</b>                                      | 66 °C (151 °F) (closed cup)   |
| <b>Evaporation Rate</b>                                 | Not available   |
| <b>Flammability (solid, gas)</b>                        | Not applicable  |
| <b>Upper/Lower Flammability or Explosive Limit</b>      | Not available (upper); Not available (lower)  |
| <b>Vapour Pressure</b>                                  | Not available   |
| <b>Vapour Density (air = 1)</b>                         | Not available   |
| <b>Relative Density (water = 1)</b>                     | 0.992 - 0.996 at 20 °C  |
| <b>Solubility</b>                                       | Soluble in water; Soluble in all proportions in alcohols (e.g. ethanol).  |
| <b>Partition Coefficient, n-Octanol/Water (Log Kow)</b> | Not available   |
| <b>Auto-ignition Temperature</b>                        | Not available   |
| <b>Decomposition Temperature</b>                        | Not available   |
| <b>Viscosity</b>  | Not available (kinematic); Not available (dynamic)  |
| <b>Other Information</b>                                |   |
| <b>Physical State</b>                                   | Liquid  |
| <b>Molecular Weight</b>                                 | Not available   |
| <b>Other Physical Property 1</b>                        | Available in these Colours: Red, Blue   |

## SECTION 10. STABILITY AND REACTIVITY

### Reactivity

None known.

### Chemical Stability

Normally stable.

### Possibility of Hazardous Reactions

None known.

### Conditions to Avoid

Heat. Open flames, sparks, static discharge, heat and other ignition sources. Prolonged storage. Evaporation of

solution. Light.

#### Incompatible Materials

Slightly reactive or incompatible with the following materials: oxidizing agents (e.g. peroxides), strong acids (e.g. hydrochloric acid), strong bases (e.g. sodium hydroxide).

Not corrosive to metals.

#### Hazardous Decomposition Products

Very toxic carbon monoxide, carbon dioxide; very toxic, flammable formaldehyde.

## SECTION 11. TOXICOLOGICAL INFORMATION

#### Likely Routes of Exposure

Ingestion; eye contact; skin contact; inhalation.

#### Acute Toxicity

| Chemical Name | LDLo - Oral            | LD50 (oral)            | LD50 (dermal)        |
|---------------|------------------------|------------------------|----------------------|
| Methanol      | 143 mg/kg Human - Male | 143 mg/kg Human - Male | 15800 mg/kg (rabbit) |

141,903 mg/L (4hr) (Rat) Vapour ATE Mixture

5628 mg/kg Oral (Rat)

4301.97 mg/kg Oral (Rat) ATE Mixture

63875.92 mg/kg Dermal (Rabbit) ATE Mixture

#### Skin Corrosion/Irritation

Human experience shows very mild irritation.

#### Serious Eye Damage/Irritation

Human experience and animal tests show mild irritation.

#### STOT (Specific Target Organ Toxicity) - Single Exposure

##### Inhalation

May be harmful based on animal tests. Depression of the central nervous system. Symptoms may include headache, nausea, dizziness, drowsiness and confusion. A severe exposure can cause unconsciousness. At high concentrations

May be harmful based on human experience. Nose and throat irritation. (Methanol) at high concentrations.

##### Skin Absorption

May be harmful based on animal tests.

##### Ingestion

Toxic, can cause death depression of the central nervous system, impaired vision and blindness. In some cases, there may be delayed effects on the nervous system. Symptoms may include headache, nausea, vomiting, dizziness, drowsiness and confusion. A severe exposure may cause stomach pain, muscle pain, difficult breathing and coma. Vision can be impaired and permanent blindness can result. There may be other permanent effects on the nervous system e.g. tremor, seizures. If large amounts are swallowed.

#### Aspiration Hazard

Not known to be an aspiration hazard.

#### STOT (Specific Target Organ Toxicity) - Repeated Exposure

If swallowed: liver function tests may show abnormal results.

May cause If swallowed: harmful effects on the kidneys, harmful effects on the liver.

Toxic. Causes severe effects (serious permanent impairment or life-threatening) If swallowed: at high concentrations.

#### Respiratory and/or Skin Sensitization

Not known to be a respiratory sensitizer. Not known to be a skin sensitizer.

#### Carcinogenicity

| Chemical Name | IARC       | ACGIH®         | NTP        | OSHA       |
|---------------|------------|----------------|------------|------------|
| Methanol      | Not Listed | Not designated | Not Listed | Not Listed |

Product Identifier: BUG WASH - Ver. 1

SDS No.: 1830

Date of Preparation: May 11, 2017

Date of Last Revision: March 05, 2021

Page 06 of 09

May cause cancer based on animal studies.

### Reproductive Toxicity

#### Development of Offspring

Animal studies show effects on the offspring. If inhaled: known to cause: decreased weight, birth defects. Teratogenic(external, soft tissue and skeletal defects) embryotoxic (late resorptions).

#### Sexual Function and Fertility

Not known to cause effects on sexual function or fertility.

#### Effects on or via Lactation

Can transfer to mother's milk. May cause harm to breastfed babies.

### Germ Cell Mutagenicity

Conclusions cannot be drawn from the limited studies available.

### Interactive Effects

No information was located.

## SECTION 12. ECOLOGICAL INFORMATION

This section is not required by OSHA HCS 2012.

This section is not required by WHMIS.

### Ecotoxicity

#### Chronic Aquatic Toxicity

| Chemical Name | NOEC Fish   | EC50 Fish | NOEC Crustacea | EC50 Crustacea |
|---------------|---|-----------|----------------|----------------|
| Methanol      | 7900 mg/L (Lepomis macrochirus (bluegill); 200-hrs) |           |                |                |

### Persistence and Degradability

Degrades rapidly based on quantitative tests.

### Bioaccumulative Potential

This product and its degradation products are not expected to bioaccumulate.

### Mobility in Soil

No information was located.

### Other Adverse Effects

There is no information available.

## SECTION 13. DISPOSAL CONSIDERATIONS

### Disposal Methods

The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## SECTION 14. TRANSPORT INFORMATION

Not regulated under Canadian TDG regulations. Not regulated under US DOT Regulations.

**Environmental Hazards** Not applicable

**Special Precautions** Not applicable

Product Identifier: BUG WASH - Ver. 1  
Date of Preparation: May 11, 2017  
Date of Last Revision: March 05, 2021

## SECTION 15. REGULATORY INFORMATION

### Safety, Health and Environmental Regulations

#### Canada

##### Domestic Substances List (DSL) / Non-Domestic Substances List (NDSL)

All ingredients are listed on the DSL/NDSL.

#### USA

##### Toxic Substances Control Act (TSCA) Section 8(b)

All ingredients are listed on the TSCA Inventory.

##### Additional USA Regulatory Lists

California Proposition 65:

WARNING: Cancer and Reproductive Harm - [www.P65Warnings.ca.gov/product](http://www.P65Warnings.ca.gov/product).

#### Custom Regulatory 1

Consumer Product Safety Improvement Act of 2008 General Conformity Certification

The Supplier identified in Section 1 of this MSDS has evaluated this product and certifies it to be labeled and packaged in compliance with the applicable provisions of the Federal Hazardous Substance Act as stated in 16 CFR 1500 and enforced by the Consumer Product Safety Commission, and where applicable the products that require Child Resistant Closures are packaged in accordance with the Poison Prevention Packaging Act as stated in 16 CFR 1700 and enforced by the Consumer Product Safety Commission. All closures have been tested in accordance with the latest protocols. No other testing is required to certify compliance with the above. The date of manufacture is stamped on the product container.

## SECTION 16. OTHER INFORMATION

**SDS Prepared By** Compliance and Regulatory Department

**Phone No.** 905-878-5544

**Date of Preparation** May 11, 2017
