TRUCK TENT FAQ

Will the tent fit with sports bars, roll bars, or bedside rails?

Railings will work as long as they are less than 3" tall. Roll and sports bars must be removed.

Can you fit a tent over a bed toolbox?

Yes. We recommend placing the tent over the toolbox to minimize the amount of water that could enter between the box and the tent. Cover the corners of the toolbox to protect the tent from ripping on sharp edges. Please note, you will lose the amount of space that the toolbox occupies.

Will the tent fit with a tonneau cover?

COMPATIBLE: Retractable tonneau covers and roll-up covers less than 6" high (place the tent over the cover). Roll-up covers more than 6" high will need to be removed or placed against the tent. Note: if the cover is placed against the tent, rain may find its way in.

NOT COMPATIBLE: Folding tonneau covers and hinged tonneau covers. These will need to be removed.
