SAFETY

BEFORE YOU USE THIS DEVICE FOR THE FIRST TIME, PLEASE READ THE FOLLOWING NOTES IN THIS MANUAL AND HEED ALL WARNINGS, EVEN IF YOU ARE FAMILIAR WITH HANDLING ELECTRONIC DEVICES. KEEP THIS MANUAL IN A SAFE PLACE FOR FUTURE REFERENCE.

WARNING!

- Do not use if broken, bent, cracked or damaged parts are present. Any light that appears damaged in any way or operates abnormally must be removed from service immediately. Inspect before each use.
- This light is not to be used by children. Keep out of reach of children.
- Do not leave light energized and unattended.
- Do not dispose of batteries in fire. Batteries may explode or leak.
- Do not charge or use near open flames or glowing embers.
- Do not shine directly into eyes.
- Never turn light on while charging as it will damage the unit.
- Never block lens and reflector during operation.
- Unplug unit and allow it to cool before attempting any cleaning or maintenance.

CAUTION!

- Do not store the spotlight for an extended period of time. Charge every three months during storage.
- Do not charge the light for an extended period of time. Overcharging will greatly shorten battery life.
- You must give the spotlight battery a top-up charge at the time of purchase.
- Avoid charging at temperatures below 39°F (4°C).

CHARGING INSTRUCTIONS

Charge the 1000 lumen spotlight via the supplied USB cable or supplied USB AC charger or via a 12 V USB cigarette charger (not included).

1. Insert the USB cable into the micro USB charge-in socket (part 6) and plug the other end of the cable into a USB AC charger socket (not included) or a 12 V USB cigarette charger socket (not included) to charge the light. The LED indicator (part 4) will show the battery status.

2. The battery will be fully charged after approximately 8 hours.
3. When the battery is fully charged, the LED indicator will show "100". When charging has completed, disconnect the USB cable from the light, and remove the adaptor from the wall socket or USB cigarette charger socket.

THE BATTERY SHOULD BE RECHARGED EVERY THREE MONTHS.

This will help keep a longer-lasting battery life. The USB cable and USB AC adaptor are for re-charging only.

Clean the cooled lens with household window cleaner; then wipe with a soft, clean, dry cloth. Clean the housing with a clean, dry cloth. Do not expose the light to direct sunlight. Dry thoroughly before reuse. Store the light in a dry, clean area. Avoid high humidity.

In order to ensure maximum battery performance, the light should be fully charged before being used for the first time. This 1000 lumen spotlight features four different light functions (spotlight + 15 white SMD light/spotlight/15 white SMD light/red warning light). The highest brightness reaches 1000 lumens.

Press the on/off switch (part 7) to turn on or off the red warning light. Press the on/off switch (part 8) to turn on or off the spotlight. The switching order is: spotlight and 15 white SMD light both on, spotlight on, 15 white SMD light on, off.

You can select the suitable light operation mode for each application. Recharge the battery immediately after each use.

LED INDICATOR OF BATTERY STATUS

LED indicator (part 4) will illuminate when product is charging or operating. It shows how much power (percentage) remaining.

ENVIRONMENTAL CONCERN

ENERGY PERFORMANCE VERIFIED
RENEWABLE ENERGY SOURCE VERIFIED
LI-ION
This product contains an internal Li-ion battery made from environmentally-sensitive materials. Please return this product to your local dealer or to your local recycling station, where batteries will be recycled or disposed of properly.

Only qualified service personnel must perform repairs. Do not open the exterior casing of the light, as there are no user-serviceable parts inside. Opening or tampering with the casing may void any guarantee and/or cause damage to the product or personal injury. LED bulbs will never wear out under normal conditions and do not need to be replaced. For safety precautions, do not charge the battery. Seek a professional for assistance if a new battery is needed.

Press the on/off switch (part 7) to turn on or off the red warning light. Press the on/off switch (part 8) to turn on or off the spotlight. The switching order is: spotlight and 15 white SMD light both on, spotlight on, 15 white SMD light on, off.

You can select the suitable light operation mode for each application. Recharge the battery immediately after each use.

USB OUTLET

Store the light in a clean and dry area. Store the supplied cable and adaptor with this product safely. This will ensure you always have the charging device when needed. To prevent fire or burning, allow the light to cool down completely before you store it.

5

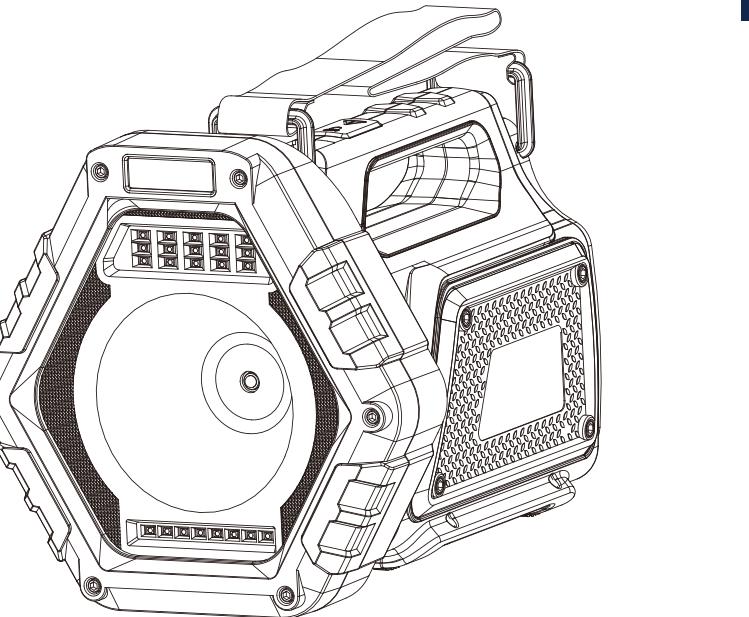

This product carries a one (1) year warranty against defects in workmanship and materials. Mastercraft Canada agrees to have any defective light replaced free of charge, within the stated warranty period, when returned by the original purchaser with proof of purchase. This product is not guaranteed against wear or breakage due to misuse and/or abuse.

MASTERCRAFT

PROJECTEUR À DEL DE 1 000 LUMENS

**IMPORTANT :**

Veuillez lire attentivement ce guide d'utilisation avant d'utiliser ce projecteur et le conserver aux fins de consultation ultérieure.

GUIDE D'UTILISATION

1

N° de modèle : 037-2426-0 | Contactez-nous au 1 888 942-6686

SÉCURITÉ

AVANT LA PREMIÈRE UTILISATION DE CE PROJECTEUR, Veuillez lire attentivement les remarques suivantes dans ce guide et respecter tous les avertissements, même si vous êtes familiarisé avec la manutention d'appareils électroniques. Conservez ce guide dans un endroit sûr pour référence ultérieure.

AVERTISSEMENT !

- Ne l'utilisez pas si des pièces sont cassées, pliées, fissurées ou endommagées. Tout projecteur endommagé de quelque manière que ce soit ou qui ne fonctionne pas normalement doit être mis hors service immédiatement. Inspectez le projecteur avant chaque usage.
- Ce projecteur n'est pas conçu pour les enfants. Tenez-le à l'écart des enfants.
- Ne laissez pas le projecteur allumé sans surveillance.
- Ne jetez pas les piles dans le feu. Les piles peuvent exploser ou couler.
- Ne le rechargez pas et ne l'utilisez pas près de flammes ou de braises ardentes.
- Ne projetez pas le faisceau directement dans les yeux de qui que ce soit.
- N'allumez pas le projecteur lorsque vous le rechargez car vous l'endommagerez.
- Ne bloquez jamais la lentille et le réflecteur pendant le fonctionnement.
- Débranchez le projecteur et laissez-le refroidir avant de tenter toute opération de nettoyage ou d'entretien.

ATTENTION !

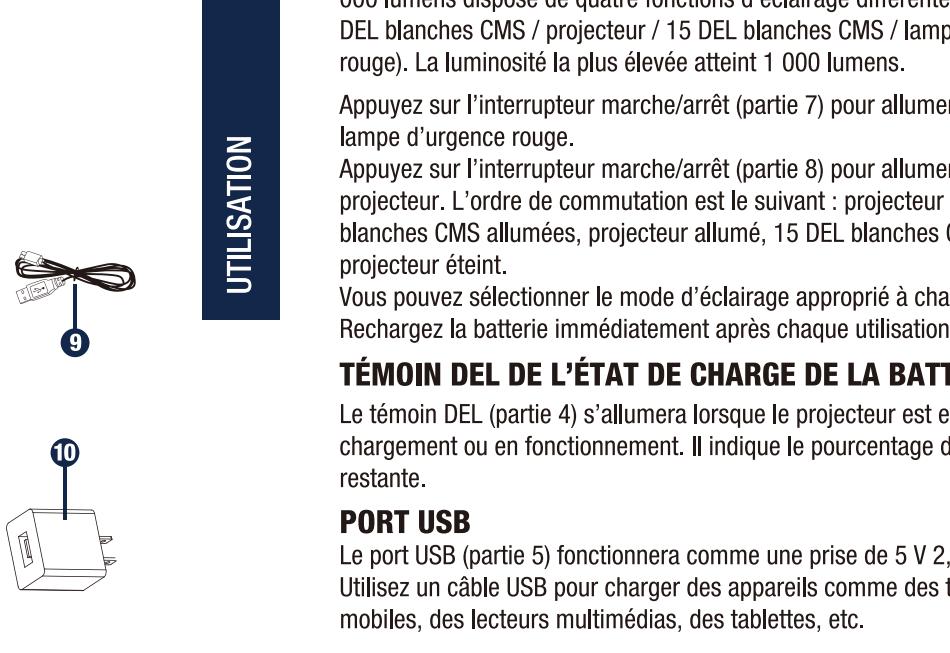

- N'entreposez pas le projecteur pour une période de temps prolongée. Rechargez-le tous les trois mois pendant l'entreposage.
- Ne chargez pas le projecteur pour une période de temps prolongée. La surcharge risque de réduire la durée de vie de la batterie.
- Vous devez complètement recharger la batterie du projecteur au moment de l'achat.
- Évitez de charger la batterie à des températures en dessous de 39 °C (4 °C).

2**DESCRIPTION DU PRODUIT**

Votre nouveau projecteur fournit une source de lumière sécuritaire et portable simplement au moment où vous en avez besoin, surtout dans des situations d'urgence. Il n'est pas étanche, et une utilisation prolongée sous la pluie ou la neige devrait être évitée.

**3****DESCRIPTION DU PRODUIT**

Power required : 5 V, 1 000 mA
Type of battery : Li-ion 3,7 V, 1 800 mAh
Type of bulb : DEL
Charging time : approximately 8 hours

4**INSTRUCTIONS DE CHARGE**

Charge the projector for 1 000 lumens using the USB cable provided or simply at the moment when you need it, especially in emergency situations. It is not waterproof, and prolonged use in the rain or snow should be avoided.

1. Connect the USB cable to the projector's USB port (part 6) and connect the other end of the cable to the USB port of the USB charger (part 12) (not included).

2. The battery is completely charged after approximately 8 hours.

3. Once the battery is completely charged, disconnect the USB cable from the projector, remove the power adapter from the USB port, and then disconnect the USB cable from the projector.

4. The projector's LED display (part 4) will indicate the battery's charge level.

5. The projector's autonomy is approximately 1 000 lumens when the battery is completely charged and in optimal performance mode.

6. The autonomy of this light source when the battery is completely charged and in optimal performance mode is approximately 1 000 lumens.

7. The autonomy of the projector 10 W + 15 DEL blanches CMS is approximately 3 hours.

8. The autonomy of the projector 10 W is approximately 5 hours.

9. The autonomy of the projector 15 DEL blanches CMS is approximately 5 hours.

10. The autonomy of the projector 8 DEL rouges d'urgence is approximately 48 hours.

To ensure maximum performance of the battery, the projector must be completely charged before its first use. This projector 1 000 lumens has four different lighting functions (projector + 15 DEL blanches CMS / projector / 15 DEL blanches CMS / emergency light red). The highest brightness reaches 1 000 lumens.

11. Press the emergency light switch (part 7) to turn on or off the emergency light.

12. Press the emergency light switch (part 8) to turn on or off the projector.

13. The projector's exterior cannot be repaired by the user, as it contains no repairable parts. The projector's exterior can be repaired by a professional technician. Do not open or damage the projector's exterior. The projector's exterior can be damaged by opening or damaging it.

14. The projector's exterior can be damaged by opening or damaging it.

15. The projector's exterior can be damaged by opening or damaging it.

16. The projector's exterior can be damaged by opening or damaging it.

17. The projector's exterior can be damaged by opening or damaging it.

18. The projector's exterior can be damaged by opening or damaging it.

19. The projector's exterior can be damaged by opening or damaging it.

20. The projector's exterior can be damaged by opening or damaging it.

21. The projector's exterior can be damaged by opening or damaging it.

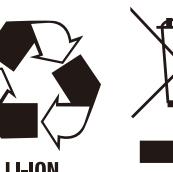

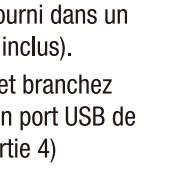

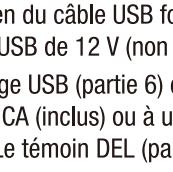

22. The projector's exterior can be damaged by opening or damaging it.

23. The projector's exterior can be damaged by opening or damaging it.

24. The projector's exterior can be damaged by opening or damaging it.

25. The projector's exterior can be damaged by opening or damaging it.

26. The projector's exterior can be damaged by opening or damaging it.
