Operating voltage 120 V

Operating frequency 60 Hz

Power 56 W

Maximum current 0.75 A

### Warning!

- To avoid possible electric shock, switch off the power supply at the main fuse or circuit breaker box before installing, servicing, or cleaning.

### Warning!

- When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- **READ ALL THE INSTRUCTIONS BEFORE USING THIS FAN.**
- Use this fan only as described in this manual. Any other use not recommended by the manufacturer may cause electric shock, fire or injury to persons.
- Do not operate the fan with a damaged power cord or after the fan malfunctions or has been dropped in any manner.
- Use of extreme caution is necessary when any fan is used by or near children, disabled persons or pets and whenever the fan is left operating unattended.
- Do not place the fan on a small, unlevel, uneven surface or any surface which might allow fan to tip or fall.
- For proper operation, fan should be placed on a smooth, non-combustible, level surface.
- Always unplug fan when not in use, when moving from place to place, when assembling or disassembling parts, and before cleaning.
- The use of attachment not recommended or sold by the manufacturer may cause hazards.
- Do not use outdoors.
- Do not operate the fan with blade guards or any safety device removed.
- Do not insert or allow any object to enter any openings on the fan. Doing so may cause electric shock and/or fire hazard. Avoid contact with moving parts.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure they do not play with the appliance.

### Warning! HOT SURFACES

- Do not touch fan motor when in use. This motor is hot when in use.
- To avoid burns, do not let bare skin touch hot surfaces.

### Warning! FIRE HAZARD

- Fans have arcing or sparking parts inside.

- Do not use near combustible materials or flammable gases or sources of heat.
- **DO NOT USE** in areas where gasoline, paint or flammable materials are used or stored. To prevent a possible fire, do not block air intakes or exhaust in any manner.
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock, fire, or damage the fan.

**IMPORTANT: RETAIN FOR FUTURE REFERENCE, AND READ CAREFULLY.**

**Warning! SHOCK HAZARD**

- Use your fan only in dry environments.
- Do not use with damaged cord or plug. Use with adequate electrical system that is up to code.
- Unplug the fan when not in use.

- This fan is NOT intended for use in a bathroom, laundry area, or similar locations, or near sinks, washing machines, swimming pools or other sources of water.
- Never locate fan where it may fall into a bathtub or other water receptacle.
- Do not use in damp environments such as flooded basements.
- To prevent electric shock, this product has a polarized two prong plug (one blade is wider than the other) that must be fully inserted in to a matching properly-grounded outlet.
- This plug is designed to fit a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If the plug still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.
- To reduce the risk of fire or electric shock, do not use this product with any solid-state speed control device.
- DO NOT operate any fan with a damaged cord or plug or after fan malfunctions, has been dropped or damaged in any manner.
- Do not operate fan with a broken blade, safety cage or any visual imperfections.
- Disconnect power before servicing. For repairs covered under warranty, see warranty statement.
- DO NOT run power cord under carpeting.
- DO NOT cover cord with throw rugs, runners or the like.
- Arrange cord away from traffic area where it will not be tripped over.
- Avoid the use of extension cords due to risk of fire. If an extension cord must be used, the cord must be minimum 14 AWG and rated not less than 1875 watts. Do not use an extension cord unless the plug can be completely inserted into its receptacle.
- Do not operate fan with its ventilation obstructed.

**IMPORTANT: RETAIN FOR FUTURE REFERENCE, AND READ CAREFULLY.**

## Instructions for Floor and Table Use:

Simple assembly is required to use this fan on a table or floor.

Fig. 1

1

Locate 4 slots on the base of fan (see Fig.1).

2

Push fan leg into slot to lock in place. Repeat this action on the three remaining legs.

## Bug screen attaches to back of fan:

Simply attach loops of cover to the hooks around the fan openings (see Fig. 2).

Fig. 2

**Warning!**

- Fan will not stop a child from falling out of the window. Keep children away from open windows.

## Installation For Double Hung Window:

It is recommended that window screens be left in place.

- Legs should not be installed when mounting in window.
  - Your fan comes fully assembled and is ready for window installation.
  - This fan has been designed for a double hung window with a minimum opening of 23 1/2" (59.7 cm) wide by 11 1/8" (28.3 cm) high.
  - Prior to installation, be sure the side panels are in the retracted position.
  - Open window at least 12" (30 cm).
  - Identify the front and back sides of the fan.
- FOR FRESH AIR OPERATION** (draw in fresh air from the outside), position the fan so the front side faces you. See silkscreen indicator under control dial "This Side — Fresh Air In".
- FOR EXHAUST AIR OPERATION** (pulls inside air out of the room), position the fan so the back side faces you. See silkscreen indicator under control dial "This Side — Exhaust Out".
- Place one hand under the fan and grasp the recessed handle around the control dial with your other hand. With power cord aligned in its slot and coming inside the house, position the bottom (lower edge) of the fan over the sill cap of the window while still holding the recessed handle. Use your free hand to lower the window sash down, making firm contact with the top of the fan (see Fig. 3). Secure window sash in down position tight against the fan top. Note: It is the customer's responsibility to be sure the fan is secure in the window.
  - Pull out each side panel until the spaces on the sides of the fan are fully blocked, making sure that the power cord is hanging inside the room. The side panels can be retracted back into the fan by pushing them inwards.

Fig. 3

## 1. Features

- 2-speed dial control.
- Accordion expanders to fit most windows.
- Manually reversible for intake or exhaust.
- Removable feet for tabletop use.
- Removable bug screen.

## 1. Fan Operation

- Always operate the fan in the upright position following all instructions and recommendations listed in this manual.

## 2. Fan Location

- Place the fan in the area of the room that will provide proper fan cooling. This fan can be placed in a window to provide additional FRESH air from outside. In this location, the fan can also be used to push inside air to the outside using the EXHAUST position.

## 3. Fan Connection

- Plug fan directly into 120 V AC, 60 Hz wall outlet. Be sure plug fits tightly in outlet. A loose connection may cause overheating and damage to the plug or fan.
- **NOTE:** To prevent overloading a circuit, do not plug the fan into a circuit that is servicing other electrical needs.

## 4. Turning Fan ON/OFF

- Clip or place fan on stable surface. Plug fan into outlet. To start the fan, slide power switch to desired speed button: **OFF, HIGH, LOW**.

## 5. Fan Functions

- **FRESH AIR OPERATION** draws fresh air from the outside.
- **EXHAUST AIR OPERATION** pulls inside air out of the room.

**Warning!**

- Before cleaning the fan, be sure to disconnect power cord from the plug.
- Do not use the fan without the grille in place.

Periodic grille cleaning with a vacuum will prevent dust build-up.

- Clean the grille surface with a clean, damp cloth. Do not use harsh chemical or abrasive cleaners.
- **DO NOT IMMERSE THE FAN OR ANY WIRES IN WATER.**
- Replace front grille before fan use. Allow fan to dry completely before use.
- The motor is sealed and does not require any interior maintenance, cleaning or lubrication.

**Maintenance**

The internal motor bearings are permanently lubricated at the factory and do not require any additional lubrication.

**Repair**

**DO NOT OPERATE THE FAN WITHOUT THE GRILLE IN PLACE. DO NOT USE THE FAN IF IT HAS MALFUNCTIONED OR BECOME DAMAGED IN ANY WAY.**

**Storage**

Keep original carton for storage of the fan. Coil and tie the power cord to avoid damage during storage.

**Warning!**

- Please do not attempt to open or repair the fan by yourself. Doing so may void the warranty and could cause damage or personal injury.

This product is guaranteed for 12 months from the date of original retail purchase against defects in materials and workmanship.

Subject to the conditions and limitations described below, this product, if returned to us with proof of purchase within the stated warranty period and if covered under this warranty, will be repaired or replaced (with the same model, or one of equal value or specification), at our option. We will bear the cost of any repair or replacement and any costs of labour relating thereto.

### **This warranty is subject to the following conditions and limitations:**

- a bill of sale verifying the purchase and purchase date must be provided;
- this warranty will not apply to any product or part thereof which is worn or broken or which has become inoperative due to abuse, misuse, accidental damage, neglect, or lack of proper installation, operation, or maintenance (as outlined in the applicable owner's manual or operating instructions) or which is being used for industrial, professional, commercial, or rental purposes;
- this warranty will not apply to normal wear and tear or to expendable parts or accessories that may be supplied with the product which are expected to become inoperative or unusable after a reasonable period of use, including but not limited to finish, glass coverings, and remote controls;
- this warranty will not apply to routine maintenance;
- this warranty will not apply where damage is caused by repairs made or attempted by others (i.e., persons not authorized by the manufacturer);
- this warranty will not apply to any product that was sold to the original purchaser as a reconditioned or refurbished product (unless otherwise specified in writing);
- this warranty will not apply to any product or part thereof if any part from another manufacturer is installed therein or any repairs or alternations have been made or attempted by unauthorized persons;
- this warranty will not apply to normal deterioration of the exterior finish, such as, but not limited to scratches, dents, paint chips, or to any corrosion or discolouring by heat, abrasive and chemical cleaners; and
- this warranty will not apply to any component part sold by and identified as the product of another company, which shall be covered under the product manufacturer's warranty, if applicable.

### **Additional Limitations**

This warranty applies only to the original purchaser and may not be transferred. Neither the retailer nor the manufacturer shall be liable for any expense, loss, or damage, including, without limitation, any indirect, incidental, consequential, or exemplary damages arising in connection with the sale, use, or inability to use this product.

### **Notice to Consumer**

This warranty gives you specific legal rights, and you may have other rights, which may vary from province to province. The provisions contained in this warranty are not intended to limit, modify, take away from, disclaim or exclude any statutory warranties set forth in any applicable provincial or federal legislation.
