SAFETY

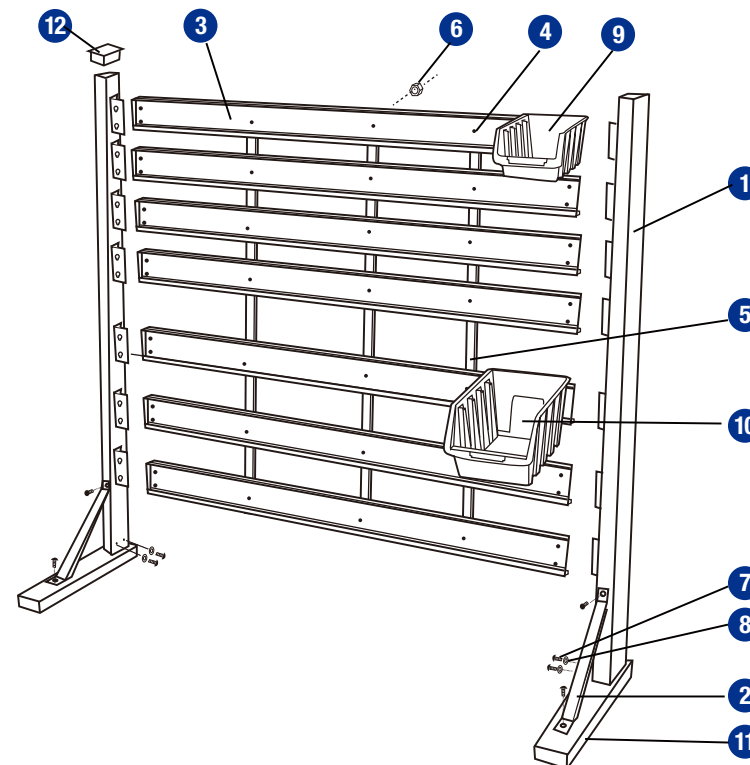

- Keep your work area clean and well-lit. Cluttered work spaces and poor lighting can cause accidents.
- Keep children and unnecessary onlookers out of the work area. Distractions can cause accidents.
- All metal pieces need to be loosely assembled before tightening screws.
- Stay alert. Watch what you are doing and use common sense during assembly and use of this product.
- During assembly dress appropriately. Do not wear loose clothing or jewellery. Tie back long hair. Do not overreach. Maintain proper footing and balance at all times.
- Use safety equipment during assembly. Always wear eye protection. Always wear approved safety goggles when setting up the storage rack.
- Do not force the product, and do not use it for any other purpose than that for which it is intended.
- Use only accessories that are recommended by the manufacturer for your model.
- Maintain labels and nameplates on the storage rack. They contain important information.
- Maintain a safe working environment. Make sure there is adequate surrounding workspace. Do not use this product in a damp or wet location.
- Make sure you evenly distribute the weight of the materials stored in this rack.
- Do not overload or over-stack this storage rack. Overloading can damage the bins and could possibly result in tipping and personal injury. Over-stacking can result in tools or other objects sliding or falling from the storage rack and could result in damaged tools and/or personal injury.
- Be aware of dynamic loading! Dropping or bouncing a load may briefly create excess load causing product damage, severe personal injury, and/or death.
 - Maximum load for overall storage rack: 171 lb (77.6 kg).
 - Maximum load for each large bin: 5 lb (2.3 kg).
 - Maximum load for each small bin: 3 lb (1.4 kg).

ASSEMBLY INSTRUCTIONS

STEP 1

Attach column (1) to the bottom feet (11) using bolts (7) and spring washers (8) to secure. Secure one column support (2) to each column (1) and bottom feet (11) using bolts (7) and spring washers (8) as shown in Fig. 1.

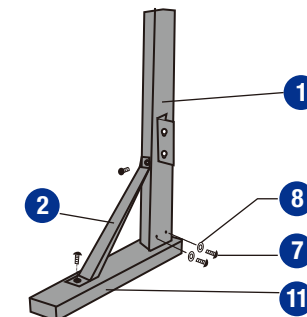

Fig. 1

STEP 2

Attach each of the seven hanging bars (3) to one column (1). Secure to the column and attach each hanging bar (3) to the second column (1).

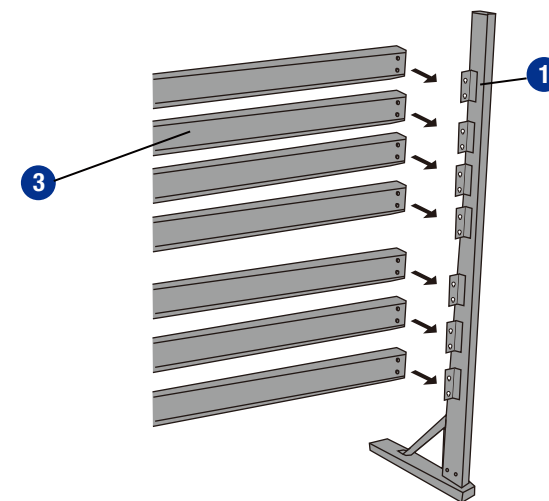

Fig. 2

4

ASSEMBLY INSTRUCTIONS

STEP 3

Set the hanging bar support (5) so that it intersects all seven hanging bars (3) at the centre of each. Secure it in place with bolt (4), spring washer (8) and nut (6) as in Fig. 3 and assembly diagram.

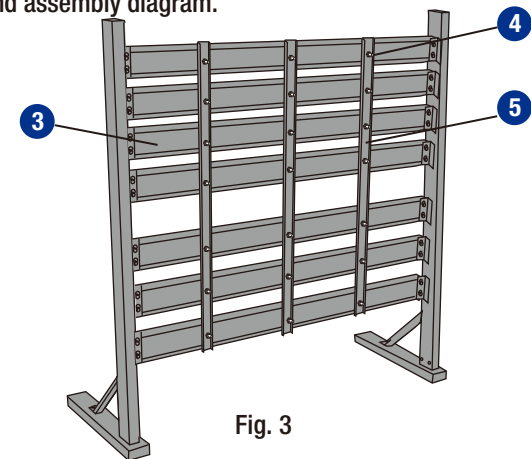

Fig. 3

STEP 4

Arrange the bins on the storage rack as desired. Each bin has a small lip located on the rear side as shown in Figs. 4 and 5. Slide this lip over the hanging bar (3) making certain that the bin is securely in place.
