**Caution:**

Do not stand or climb on the shelves.  
Place heavier items on the lower shelves and lighter items on the top shelves.  
Do not move the shelving unit when loaded.

**Warning:**

Total Maximum weight capacity of 400 lb (181.4 kg), evenly distributed, when assembled with wheels.  
Exceeding these load limits could cause sagging, instability product collapse, and/or serious injury.

**Warning!** To reduce the risk of serious injury, read the following safety instructions before assembling and using the product.

**Caution!** Always keep children under close supervision while they are using or around this product. Never leave children unattended.

## TIPPING RESTRAINT HARDWARE

There is one set of tipping restraint hardware included with this shelving unit. When properly installed, this restraint can help limit the risk of unexpected tipping of the unit. It is strongly recommended that this hardware is installed properly to limit the possibility of tipping due to slight tremors or bumps.

Full instructions for the installation of the tipping restraint hardware are printed on the back of the hardware bag. Please carefully read and follow these instructions to correctly install the tipping restraints.
