Universal Part

A30 5TH WHEEL HITCH WITH RAILS #16191

PRICE \$1725.95 USD

- Cast yoke with poly-torsion inserts to suppress shock loads and reduce noise
- Fully articulating torsion head for controlled coupling and stable towing
- Lockable handle self-resets to the ready-to-couple position after uncoupling
- Constructed with a cast steel main body for a more precise build
- High-strength, interlocking jaws fully wrap the kingpin to minimize noise
- Extra wide head opening for easier coupling
- Fast, one-pin head removal makes moving easy with smaller, lighter pieces
- Alignment pegs and easy-access bolts for simple leg-to-body attachment
- Three-position coupling indicator clearly shows coupling status
- Compatible with kingpin extension boxes, including common pivoting pin boxes
- Offers three height adjustment positions to adapt to each unique truck bed
- Includes a polyethylene lube plate to eliminate messy grease deposits
- Tested for safety in accordance with SAE J2638
- Protected by a highly durable carbide powder coat finish
- Limited lifetime warranty (one-year finish, one-year parts)
- Patent# 8,827,298

Notes:

- Includes A30 5th wheel hitch #16190, base rails #16200 and hardware
- Each truck-trailer configuration is different. Be sure to review each configuration and always ensure adequate trailer-to-cab clearance when maneuvering.
- Capacity limited to lowest-rated towing component

PRODUCT DETAILS

The CURT A30™ 5th wheel hitch offers smoother, quieter towing for your home-away-from-home, combining the patented technology of our A-series™, an easier mounting system and the power of a 30K 5th wheel hitch.

Like our other A-series™ hitches, this 30K 5th wheel hitch uses a patented cast yoke to allow for unimpeded head movement, while providing exceptional stability for the trailer. The yoke has a set of poly-torsion inserts to suppress shock loads and reduce excessive noise, and the head features high-strength, interlocking jaws to give the trailer stability and the freedom to pivot and swivel as needed.

The A30™ 5th wheel hitch is also engineered for easier installation. The legs are equipped with two pins to properly align with the mounting holes, and they have easy-access mounting bolts for ergonomic tightening. The 5th wheel head also has a fast, one-pin removal system to make installation and removal from the truck bed easier. This 30K 5th wheel comes with a set of industry-standard 5th wheel base rails to mount onto custom 5th wheel brackets.

Once installed, the A30™ is fast and simple to operate. It features an extra-wide head opening to increase the coupling area for the trailer, and it has a lockable, single-throw handle that self-resets to the ready-to-couple position after uncoupling. To make coupling even easier, it is equipped with a coupling indicator that is visible from the truck cab. The indicator shows the status of the connection and eliminates the need for you to check multiple times while coupling.

To protect the A30™ 5th wheel hitch against rust, wear and whatever other threats might impede your cross-country tour, it comes with a black carbide powder coat finish and a limited lifetime warranty. We also test the A30™ for safety in accordance with SAE J2638 to ensure reliability for the road ahead.

PRODUCT SPECIFICATIONS

Finish	CARBIDE BLACK POWDER COAT
Gross Trailer Weight (GTW)	30,000 LB
Head Series	A-Series
Hub Warehouse	D25
Material	CAST STEEL
Mount Type Description	Not Applicable
Part Type	Semi-Custom 5th Wheel Bracket Kit
Shipping	Freight Only
Shipping Weight	183,000
Side Application Type Description	Not Applicable
Vertical Load	7,000 LB
Warranty	Limited Lifetime Warranty (One-Year Finish, One-Year Parts)
