PRODUCT DESCRIPTION

The love and care that goes into preparing your homemade preserves should be reflected by the containers you store them in! From pickles to chutneys, fruits to sauces, Quattro Stagioni glass storage jars by Bormioli Rocco are made with thick, durable, high quality glass to keep your favourite foods fresh for longer.

The sealing gasket inside the lid is larger than standard gaskets, and is gas-permeable to let air escape during the boiling process while keeping air and water out. Best of all, they're reusable time and time again: just place them in the dishwasher, replace the lid, and they're ready to store!

Quattro Stagioni glass jars are perfect for storing oils and vinegars, dry goods and leftovers, too—plus they make charming gift containers for when it comes time to share your delicious delicacies with family and friends!
