Safety Instructions

Warning!

To reduce the risk of serious injury, read the following safety instructions before assembling and using the gazebo.

Caution!

Always keep children under close supervision while they are playing around this product. Never leave children unattended. Keep pets away while setting up the gazebo.

Caution!

Check municipal by-laws prior to installing the gazebo.

- This product is intended for domestic, outdoor use only.
- Always place and assemble the gazebo on flat, horizontal ground.
- Consult with your local governing authority/local municipal codes regarding installation of temporary structures before assembly.
- Ensure there is enough clearance around the product. Before assembling the gazebo, make sure to leave a distance of not less than 1.8 m (6') from any structures or obstructions, such as fences, garages, houses, overhanging branches, laundry lines, or electrical wires.
- Anchor the gazebo to the ground with stakes for added safety. Stakes are provided to secure the gazebo to the ground. If you wish to secure the gazebo to a concrete and wood surfaces, use anchors suited for these surfaces (anchors not included). Do not assemble the gazebo on sandy, muddy or loose soil, as stakes are not strong enough to anchor in these types of soil.
- If more than one gazebo is set up, keep a minimum distance of 3 m (10') between the gazebos.
- Any assembly or maintenance of the gazebo must be carried out by adults only.
- Make sure there is sufficient manpower when assembling or moving the gazebo.
- Some parts may contain sharp edges. Wear protective gloves if necessary.
- Check all nuts and bolts periodically for tightness. If required, tighten them.
- Repairing and replacing parts should be done by a qualified technician.
- This gazebo is intended for decorative and sunshade purposes only, and is not designed to withstand harsh weather, including high winds, rain, and snow.
- Always disassemble the gazebo in heavy wind conditions. If not, it might tip over and could cause injury to bystanders.
- Always ensure that the canvas is taut to avoid water accumulation on the roof. If water accumulates on the roof, remove it immediately or disassemble the gazebo in order to avoid damages.
- Do not light any fires inside or near the gazebo.
- Do not panic if fire breaks out inside the gazebo. Search for the nearest exit. Do not return to the gazebo until the firemen allow you to do so.
- Do not hang any weights on the roof frame.
- Do not climb onto the roof of the gazebo. Doing so may cause the gazebo to fall down, thereby resulting in serious injury.
- Retain the original packaging to store the gazebo.
- If the gazebo will not be used for a long period of time (e.g., during winter time), disassemble and store it in a clean, dry environment.

Caring for Your Item

Caution!

- Check all screws and nuts periodically for tightness, fastening them again as required.
- Disassemble the gazebo in the reverse order of the assembly steps. Always disassemble the gazebo completely. A partially-disassembled gazebo is not stable enough to resist wind and bad weather, and therefore can be damaged and/or cause damage.
- Keep all flame and heat sources away from the tent fabric. This tent is made with fabric that meets CPAI-84 specifications for flame resistance. It is not fire proof. The fabric will burn if left in continuous contact with any flame source. The application of any foreign substance to the tent fabric may render the flame-resistant properties ineffective.

- To wash the fabric parts:
 - Spread the fabric and use a soft-bristle brush to clean.
 - Always use a natural soap. Never use detergent.
 - Water should be cold to lukewarm, not more than 25°C (77°F).
 - Air dry only. Do not spin in washing machine or hand squeeze.
- Do not use bleach, acid, or other abrasive cleaners on the canopies or frame parts.
- Steel components of garden accessories and furniture are coated with rust-inhibiting paint. However, due to the nature of steel, surface oxidation (rusting) will occur if this protective coating is scratched. This is a natural process. To minimize this condition, it is recommended that care be taken when assembling and handling the product, in order to prevent the paint from being scratched. Surface rust can be removed easily by applying little common cooking oil. If surface oxidation (rusting) occurs and no measures are taken to correct it, the oxidation may start dripping onto the assembly surface, which may cause stains that could be difficult to remove.
- Keep instruction manual for future reference.
- Keep the original packaging to store the gazebo.
