Close Up Look at the Killer Instinct SWAT X1! New For 2021

SMALLER. QUIETER. SMOOTHER THAN EVER.

Smaller than ever, the SWAT X1 crossbow is easier to cock, handle and shoot while executing a destructive speed of 405 feet-per-second. Measuring only 24.75 inches long and 6.25 inches wide when cocked, the micro frame generates its massive speed and power from the highly efficient Synchronized X Cam. With 50% let off, the narrow X1 can be cocked effortlessly by rope cocker, but also includes a Compact Silent Crank. The Accutac Barrel provides additional guidance and support to the crossbow bolt for unmatched broadhead accuracy at high speeds. The enclosed design also protects the bolt and broadhead making it the safest crossbow to date. Industry leading 3.0-LB Trigger produces a clean break with zero creep for the ultimate downrange shooting crossbow.

SPEED - 405 FPS

WIDTH (COCKED) - 6.25"

WIDTH (UNCOCKED) - 9.75"

LENGTH - 24.75" (without riser pads)

WEIGHT - 7.2 LB

DRAW WEIGHT - 195-LB

POWER STROKE - 13.25"

X CAM

Synchronized highly efficient design with 50% let off for an easier-to-cock crossbow that's smoother and quieter on the shot.

ACCUtAC BARREL

Enclosed 360-degree design provides greater guidance and support to the crossbow bolt, reducing the amount of crossbolt oscillation and improving high speed broadhead flight and accuracy.

ZERO CREEP TRIGGER

3.0-LB, zero creep pull with a clean breaking action for precision shooting control at long range distances.

BULLPUP DESIGN

Comfortable-to-shoulder design with a generous length of pull without sacrificing speed and power from a small, easy to maneuver crossbow frame.

ELITE PACKAGE INCLUDED

LUMIX SPEED RING 1.5 - 5 x 32 IR-E Scope, Compact Silent Crank, Quik-Draw Rope Cocker, Quiver, (3) 20-inch HYPR Bolts (390 Grains) with Field Tips, Stick of Rail Lube.

LIMITED LIFETIME WARRANTY

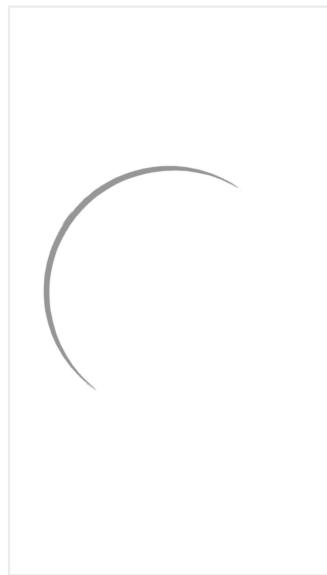

Included to cover standard, non-wearable parts for the life of the crossbow to the original registered owner.

I own the original Swat and love it. Love the X1 even more. Smooth trigger, accurate! Must have for spot and stalks. I do upgrade my nocks on the arrows to aluminum. Thanks again

Awesome crossbow, only gripe is the fletchin' on the included arrows are wimpy and tear easily. One gave up before it had ever been shot.

This is my second one. Only shot 20 times so far but shoots great. The first one I ordered came from Amazon and had to return it.

Wow!! Ordered online so my first look was when it arrived a few days later. Just the right size. Feels balanced and was assembled minus the scope and quiver mount... 10 minutes and good to go. Was a little harder to draw back than I expected but no issue. First shot at 15 yards on the money! My only complaint so far, is the channel at end of barrel is narrow so you need to select a broadhead that will clear. A longer bolt @ 22" did not help. Ramcat 125s, that I was planning on using, will not work. A minor inconvenience...

Ki Swat X1

Posted by Paul Rondell on Sep 26th 2023

I am the kind of person that is obsessed with high quality and high performance gear and I tend to buy more than my share. Received bow on Friday, bolted it up and headed out. Shot a 2 inch grouping at 20 yards on first 4 shots. Shot a 3 to 4 inch group at 40 yards with minor adjustments. My only complaint is the scope. Light dial didn't work out of the box and and adjustments barely moved. Other than that probably the best performing purchase out of the box in many years. Flawless trigger, extremely responsive, smooth and balanced. Next day pulled off the scope and put on a speed dial with a old nice scope off my weatherby 7mm and was shooting 1 to 2 inch groups at 60 yards. Rarely review my purchases but ki has done an amazing job combining quality, precision and ease of use in such a small package. It would be nice if they offered a delete for the scope as it isn't really worthy of a walmart kids crosbow.

just received my crossbow this thing is insane. out of the box and very little adjustment was dead on at 30 40 50 60 yards took 12 shots after adusting 20 yard all distances were 10 ring wow!. only thing i dont like is after you use the pull cord you have to pry the rubber pull hooks away from the main center chamber. other then that. this cross bow is incredible. will be sending my warranty and receipt of purchase in soon thank Dave Low
