

Dimensions (measure in inches)

A - Top Length

Measured from hole to hole (as shown in diagram)

B - Wheel Well

Measured from the lowest point on the outside leg to the highest point of the wheel well

C - Overall Height

Measured from the lowest point of the outside leg to the highest point overall

D - Outside Leg Width

Measured from the side of the fender skirt to the inner side of the leg

E - Inside Leg Width

Measured at the widest point at the bottom of the inside leg

F - Overall Length

Measured from the longest points of the fender skirt

Circle your answer

Is the fender narrower at the top compared to the bottom? Yes / No

Do the bottom of the legs curve underneath the RV? Yes / No

Instructions

1. Take measurements of the fender that **needs replacement** according to the diagram
2. Once you have completed the measurements, find the fender that most closely matches both the **LOOK** and **MEASUREMENTS** of the fender that needs replacement
3. Order the fender
