B	Lamp Shade	1
C	Socket Ring	1

## ▲ CAUTION

The following rules must be adhered to when assembling the product. If you have any doubts about how to install the product or if it fails to work properly, contact a local, licensed electrician. Failure to comply with these requirements could lead to an electric shock or fire, which could cause serious injury or fatality.

### Ensure:

The installer and/or user must read, understand and follow these instructions before installing the product. This product must be properly installed before it is used. If instructions are not followed, the manufacturer will not be held responsible for any problems or product malfunction. Failure to follow installation and/or operating instructions voids the warranty.

Make sure the lamp is disconnected before proceeding to the assembly.

Before beginning assembly of this product, make sure all parts are present. Compare parts with package contents list and hardware contents list. If any part is missing or damaged, do not attempt to assemble, install or operate the product.

Place all parts from the box in a cleared area and position them on the floor in front of you. Remove all packing materials and place them back into the box. Do not dispose of the packing materials until assembly is complete. Read each step carefully before beginning any assembly and make sure you understand each step.

**No tools required for assembly.**

## 4 MODEL NO. 052-8367-6

1. Unscrew the socket ring (C) from the lamp base (A).

2. Place the lamp shade (B) on the lamp base (A) and secure it with socket ring (C).

3. Install the bulb. Use one 60 W (max.) type A lamp (not included). Connect the lamp to electrical power.

## CARE AND MAINTENANCE

- Shut off main power before cleaning light with damp cloth or window cleaner. Do not use abrasive cleansers.
- Bulb replacement: Use one 60 W (max.) type A lamp or equivalent CFL.
