WARNING! To reduce the risk of serious injury, read the following safety instructions before assembling and using the accent table.

**Caution! Always keep children under close supervision while they are using or around this product.
Never leave children unattended.**

- This product is intended for indoor domestic use only.
- Do not allow your children to climb or jump on furniture due to possible accident, injury or death. A child climbing on a piece of furniture can make it top-heavy and cause the furniture to tip over.
- Any assembly or maintenance of the product must be carried out by adults only.
- Arrange necessary manpower when assembling or moving the product.
- Some parts may contain sharp edges. Wear protective gloves if necessary.
- Keep children and pets away.
- Check all nuts and bolts periodically for tightness. When required, tighten them again.
- Repairing and replacing parts should be done by a qualified technician.
- Failure to follow these warnings could result in serious injury.
- Maximum load weight on main surface is 22.6 kg (50 pounds).
- This unit is intended for use only within the maximum weight indicated. Use with loads heavier than the maximum weight indicated may result in instability, causing possible injury.

IMPORTANT: Retain for future reference, and read carefully.

NOTE: Assemble the unit on the carton or carpet to prevent scratching.

CAUTION!

- Check all screws and nuts periodically for tightness, tightening them again as required.
- Never move or push heavy furniture by yourself because it can cause the furniture to tip over. Ask a friend to help you lift the furniture and set it in an appropriate place.

- Dust frequently with a soft dry cloth in the direction of the grain.
- Use products specifically made for cleaning wood.
- Use a wood-conditioning cleaner that does not contain waxes or silicones (test the product in an unseen location first).
- Clean spills immediately with a soft, damp cloth.
- Standing water can cause white spots on the wood finish.
- Chemicals such as alcohol, perfume, and medicines can cause severe damage to the wood finish.
- Protect the wood by using coasters.
- Use a protective pad when using your furniture as a desk or writing surface (especially when using a ballpoint pen).
- Do not expose wood furniture to direct sunlight, drying heat sources or dampness.
- Steel components of garden accessories and furniture are treated with rust-inhibiting paint. However, due to the nature of steel, surface oxidation (rusting) will occur if this protective coating is scratched. This is a natural process. To minimize this condition, it is recommended that care be taken when assembling and handling the product in order to prevent the paint from being scratched. Surface rust can be removed easily using a very light application of common cooking oil. If surface oxidation (rusting) occurs and no measures are taken to correct it, the oxidation may start dripping, which may cause damaging stains that may be difficult to remove.
