

Multi-Function Fibre Optic Tree

model no. 151-5610-8 Toll-free number: 1.866.827.4985

IMPORTANT: Please read this manual carefully before assembly and save it for reference.

ASSEMBLY:

- 1) This product comes packed in three pieces: the bottom section of the tree, the treetop and the stand, and also includes a wireless remote control.
- 2) Place the base on a sturdy surface and push the plastic legs into the corresponding slots on the base until they click into position, and then insert the top section into the bottom section.
- 3) Before connecting the male and female connectors on the tree, arrows should be aligned. If not aligned properly and use excessive force, it will break the pin in the male connector. (See the attached photo)

- 4) Shape the tree by arranging the branches into the desired position. Finished look should be natural-looking and full.
- 5) Connect the plug of the light sets to the power supply. The remote control allows access to 15 light functions and 13 colours.
- 6) Your tree is ready to be decorated and enjoyed.

SHAPING: The tree is shipped from the factory with the tips of each branch compressed to the centre. Each branch tip must be shaped to its proper position to give the tree a natural look. This is done by gently grasping the branch tips and spreading them out away from the centre of the tree, working from the bottom up.

STORAGE: Branch tips should be carefully pressed back towards centre when tree is disassembled for storage. Store in original carton in a cool, dry location protected from sunlight.

If the lights do not work:

- 1) Ensure the power outlet is working correctly.
- 2) Ensure the male and female connectors on the tree are properly connected.

⚠ CAUTION:

1. For indoor use only.
2. Keep away from any source of flame or heat.
3. This is a Christmas decoration. This is not a toy. Keep out of the hands of small children.
